INTRODUCTION

When you sense that the mass of mankind because of selfishness and self-interest, table Gstrandnd get negative thoughts in your mind. It is typical of the time of the creation of Adam and Eve and Cain killed Abel hands! Sexual offenses, including crimes that occur in every society, leading to the culture and values of the people, human perspective to their legitimate and illegitimate different. Iran and Islamic countries because their view is from Islam, so they had sexual intercourse and indecent behavior is discouraged, however these types of relationships, the community is growing.

And evil nature of sexual offenses:

Evil act of adultery or sexual contact between men and women, male and Muslim lands is not just for our country, but it has long been regarded as a crime improper. (Atabaki, 1380 make third, 40). Maghsoud sexual offense of sexual offenses is a general sense of abnormal sexual behaviors, such as adultery, sodomy, homosexuality, offensive to modesty and Hayaei others like them to get out of the penis and even legitimate sexual acts in front of others involved. (Aldhby Ghali, 1998, the first G-6).

Theory of sexual offense:

Generally it can be said to be numerous factors that cause criminal offense of causing internal and external factors causing offense.

1-1 internal factors causing mass (a) such individual factors causing crime, sex, age, physical condition, psychological factors such as sensitivity, fear, low IQ, etc. can be cited. (Vasfyan, 1390, No. 20, 131).

1-1-1 physical agents :

Mass Belgian scientist in 1831 in an article pointed out: age as a direct or indirect impact on the frequency and the crime is enormous and profound. Thus, the relationship between age and crime in the field of Criminology (amount or frequency) and nature (structure or shape) have investigated crimes. They have concluded that the amount of the delinquency of a teenager begins and gradually increases with age. Heredity also know that some of the personal property through inheritance is transmitted to humans. Criminology is an issue that is important is that heredity plays what role in the crime, criminology who indulge in this area And the Waste reduction That has seen. The sex is noteworthy that more and more commonly in men than women commit crimes, the real victim of the women and controversial a subject of

Corresponding Author: Narges Abshar, MA student in criminal and criminology law ,Islamic Azad University, Science and Research, Qom branch ,Iran

controversy. (Svtyl, Kate, Pielou, Moira and Taylor, Clare, 1383, the first G-145)

1-1-2 psychological factors: Rzyllh characters and infidelity, lust racing, greed, anger, and many Another factor in crime Those involved.

1-2 External factors causing crime, including environmental factors such as poverty, wealth, family, culture, migration, unemployment, mass media named. (Vasfyan, *ibid.*, 131).

1.2.1 Social Determinants of sexual offense, the social factors that affect the formation of character, personality and behavior that can affect many families, schools, workplaces, faith, the friends, the phenomenon of prostitution. . The name that can be used all the way Detour healthy or influence. (President, 1384, the first issue, 98).

1-2-1-1 Family:

If an infected family members and continue to delinquency or incompatibility between a parent and adivorce, addiction, poverty, economic and ... The same family Be effective factors in children and criminal gangs, corruption is trapped in. (Saif, 1379, No. 32, 52). If a man does not feel relaxed at home, or her marital duties towards indifference and Qhra is important not satisfy the other man seeks refuge, and ogle will be misguided, contrary to the situation of women will be the same species. (Hasani, 13, 340).

1-2-1-2 Environment:

As evolutionists have insisted, the physical environment is often the evolution of human social organization is effective. Are enforced, pollution, disruption and abnormalities of the moral foundations of society, it can also be jeopardized, provide grounds for crime, because the place, one of the conditions is a criminal act. (Eskandari, 1391, the first G-232

1-2-1-3 of friends, peers and friends in adolescence, according to findings from the psychology of "maturity" influence on the ethical and behavioral orientation, it may sound like the obstacle of infidelity, the teenager behavior or, conversely, bad guy, the most important factors of error and corruption. Today, in addition to conventional dating, chat and forums are also increasing the negative effects such as they could, pushing youth to have illicit relations.(Khvshgv Tehrani, 1386, vol. I, 19).

1-2-2 economic factors of sex offenses:

Iran has a young population that is actually the younger Force after graduating from university and study in the field of labor and employment have a problem, which is in the wake of unemployment and poverty to make a living and proportional to the field of crime in the People will be created. Including economic factors in the development of sexual crime, poverty, unemployment, industrial (such as the development of industrial cities and foster new

relationships), etc., can be named. (Fjavnd, 1388, No. 93, 3, 2-33).

1-2-2-1 poverty:

According to some sociologists of poverty and unemployment in some poor people are poor inferiority complex And the vulnerable Are serious Place. For example, most girls who have deviated has been poor and the desire to live a life of luxury in the orientation of the C and L have. So in a society where national wealth and living facilities are not fairly distributed And the poor getting poorer and the rich richer every day will be In the wake of the devastating effects of the rise of crime (Including sexual crimes such as prostitution) is. (Eskandari, 1391, first edition, 62). However, field studies you will see that this theory is not necessarily correct.

1-2-2-2 unemployment:

According to the authors of unemployment of the most important economic factors that underlie crime. In fact, when a person is unemployed and has no job to steal for a living, and in the financial need of women to prostitution in the prostitution (earn a connection adulterous) job a accept.

1-2-3 Yrgzar impact of culture on sex offenses:

Young workers in connection with the sexual satisfaction if you do not have a problem in that it is the correct solution to a crisis of corruption in society between those proposed will be a illicit sexual relations. De odd. Insanity sex with the West A Live Ydmy Or export of sex, unfortunately, many of the countries of East and East of the close head Pierre Khvdbakhth eyes and ears closed, it will be better this spirit they represent the majority of otitis media That they accept it with open arms and with all traditions Yrftth main hero and his pure in this context Farewell once said. (The most infamous sexual libertinism souvenir West, 1354, No. 6, 3).

1-2-3-1 impact media In sexual offense:

Today, with the development of new media often to attract the audience and their commercial interests to engage in pornography and pornography. That some of the media gone far beyond the explicit sex scenes ad This will increase the negative effects of such deviations, and Sexual relations between people. (Moazzami, 1382, the first g, 133).

1-2-3-2 satellite position in the spread of illicit sexual relations:

One of the functions of the mass media, especially satellite concept and consequently, the formation of norms is consistent with the concept. Accordingly, obscene and vulgar or contrary to public morals provided by satellite images and display them, one of the spread of

prostitution, promiscuity and youth from sexual crimes. In fact, in considering the negative impact "Vogue of libertinism" that it is prohibited to use a satellite of a ban on the use of satellite equipment Act 1373 states: "Under this law, importation, distribution and use of satellite equipment, except in cases where the law has forbidden. "In fact, the easiest way to collect satellite, but it is considered Instead you could Syngal of parasitism, the filter used Or culture of the family for the use of satellites is also another solution. (Abedi Tehrani And the Afshari, 1390, No. 55, 123). The authors consider the installation of filters for adults is that by installing filtering can crusher This Site Use. Given the media's role in culture, it is necessary and appropriate to the culture medium to show healthy norms and their families and provide conflicting cultures, leading to a deviation Therefore, Refrain. And on the other side of the building to the right and create a character and culture of young people, especially girls, to increase in the information it requires strengthen the base of the religion, a belief of culture in the mass media, and more importantly, the family and the Iranian should society Sex offenders are not bad. They must also be viewed as a patient and trying to improve and take care of these people. (ibid., 120)

1-2-3-3 illicit sexual relations web site at:

In the past, access to pornographic magazines and find sex and sexy, individuals should refer to the places they were unhealthy, but now with the Internet, access is very easy. In the case of adults, Internet pornography can lead to the onset of sexual behavior, irrational and sometimes sexual addiction. Thus, the nature of evil and tempting nature of the Internet and in many Islamic traditions alone, especially in situations that provide context sin is prohibited. (Brave, 1387, the first issue, 131 and 135). Internet for easy access Easy and remain unknown user For the most corrupt people and trapping women and children for sexual exploitation, which is now facing All countries involved and the greatest power in the world has found that it is not easy to control.

1-2-3-4 unveiling or dress:

A destructive factors in the body of society and influence the human mind and body pad is seen to get veiling or unveiling. With the unveiling of relationships and intimacy, community learns, in addition to shake the foundation of the family,

marriage and reduced in contrast to previous marriages result in divorce and the divorce rate rises and the absence of privacy male and female socialization of libertinism and sexual relations increases. (Abraham Secondly, Mohammadi, Sajjadi, 1391, No. 121, 28 and 29).

1-2-3-4-5 addiction:

Addicted women can not imagine that the lack of money to buy materials to prostitution to pay, it was not only women's sexual crime but can be addictive noted, that the investigation of sexual offenses men women Mahshid Bagheri in Evin Prison in the environment can be expressed. The study stated that if the addict does not have the financial capability materials is one way to his feet, submit to sex with others for the provision of money or materials, directly. That 44% of prisoners "addiction" as a feature of the eyes that, with the consent of the victim to have sexual intercourse. (Ibid., 107, 108).

2-1 field study of consensual sexual offense:

2-1-1 report on the status of consensual sex offenses:

The study used a survey to gather information from patients, usually with a standard questionnaire asking a number of questions have been investigated. Population studied, students and non-students. This information through spss software and 11VER method according to any variable measuring levels of descriptive parameters (frequency, percentage) is used. A total of 93 subjects were interviewed using a questionnaire, which is 54.3% (n = 50) males and 45.7% (43 people) are women, average age between 18 to 29 years have been the In terms of employment, 23 students have been employed, including 18 individuals (Free State), 4 and 5 in the category of students have also been described.

2-1-2 statistical analysis and conclusions of the study field of consensual sexual offense:

According to research conducted by the authors since the beginning of friendship (during orientation) of the 93 patients (16,45%) and high school years (53,50%) of heterosexual college have been introduced in the 22.3% did not answer, too. This suggests that young people are turning to this type of society in relation to their needs so that they disappear. Stay away from family and friends involved in the creation of a lack of affection and sex or friendship relation is very effective.

• (Financial situation of households).

Financial status	Abundance	Percent
Quite good	6	6.45%
A good	39	41.93%
Average	46	49.46%
Low income	1	1 0 7%
Unresponsiveness	1	1.07%

Considering the above, it can be concluded that people who are middle-income, to have the highest and the lowest of the low income and lower In fact, it opposed the idea of theorists the poor One of the most influential factors in the rise of crime, including sexual crimes. Poverty can not be regarded as perhaps the most important factor while poor families and individuals who are committed to the ethical principles and values of society can not do it violate. So we can say that those who have the financial Tmkn not absolved of moral perversion that 41.93% of statistics suggest.

- (A factor that has led to the opposite sex would have).

The desire for the opposite sex	Abundance	Percent
Science - Cultural	7	7.52%
Satisfy the sexual desires	33	35.48%
With the aim of choosing a spouse and emotional	47	50.53%
Financial issues - economic	3	3.22%
Unresponsiveness	3	3.22%

- (The company of friends tend to have friends of the opposite sex).

I tend to have a role in the interaction with the opposite sex	Abundance	Percent
A lot	35	37.63%
Average	37	39.78%
The problem has not Syry	17	18.27%
Unresponsiveness	4	4.30%

Statistics The table above shows that socializing with friends (especially likes bad) influence on

Considering the above, it can be concluded that people who are middle-income, to have the highest and the lowest of the low income and lower In fact, it opposed the idea of theorists the poor One of the most influential factors in the rise of crime, including sexual crimes. Poverty can not be regarded as perhaps the most important factor while poor families and individuals who are committed to the ethical principles and values of society can not do it violate. So we can say that those who have the financial Tmkn not absolved of moral perversion that 41.93% of statistics suggest.

individuals and their behavior and lead to corruption and crimes being pulled by people.

- (The effect of financial problems in having friends of the opposite sex)

The effect of financial problems at a friend The opposite sex	Abundance	Percent
A lot	17	18.27%
Average	25	26.88%
Low	13	13.97%
The effect is not	35	37.63%
Unresponsiveness	3	3.22%

It can be said that the most important factor in crimes including sexual offenses due to financial problems, but it is very effective and it can not be named as the main cause of sexual but from financial problems in there are two options enjoyed (much moderate) have won a high average.

Conclusion:

Given what happened, it was shown theoretically that factors such as the family and the wider community, friends, immigration, poverty, unemployment and social factors discussed under the heading of what is on the side of these factors, cultural factors serious sexual offense significant role. And in modern times due to the distribution of films and series of fascinating and dangerous at the same time the development of a satellite telephone and Internet communications software applications and the other hand on the consent of the especially when sex The above factors have a significant role to play. At the same time it was seen as a field study basic issues of economic and financial impact on sexual offense does not consensual, and in this context, factors such as the need to choice of spouse

persons satisfaction, and sexual seriously In this role, and that of the 93 respondents, 33 to 35.48% of committing sexual relations coupled with the consent of satisfying sexual desires have raised. And 47 to 50.53% objective spouse and emotional issues have been raised as an important factor. Given the above, it is concluded that the most important factor in sexual offense with the consent of the wife is not satisfied and sexuality. So if reasonable accommodations in the creation of the institution of marriage and the family Bible scholar, it seems to be considerably reduced satisfaction based on sexual offense. Otherwise, the cultural invasion libertine who develop targeted communications, etc. Our society on the one hand and due to the increasing age of marriage seriously should await the unfavorable situation than that the face that today .The community should seek to respond to the real needs of citizens and in this respect, as far as possible to reduce the causes of sexual offense.
